### Mission statement:

*NCADV is dedicated to the empowerment of battered women and their children and therefore is committed to the elimination of personal and societal violence in the lives of battered women and their children. NCADV believes violence against women and children results from the use of force or threat to achieve and maintain control over others in intimate relationships, and from societal abuse of power and domination in the forms of sexism, racism, homophobia, classism, anti-Semitism, able-bodyism, ageism and other oppressions. NCADV recognizes that the abuses of power in society foster battering by perpetuating conditions which condone violence against women and children. Therefore, it is the mission of NCADV to work for major societal changes necessary to eliminate both personal and societal violence against all women and children. NCADV's work includes coalition building at the local, state, regional and national levels; support for the provision of community-based, non-violent alternatives - such as safe home and shelter programs - for battered women and their children; public education and technical assistance; policy development and innovative legislation; focus on the leadership of NCADV's caucuses and task forces developed to represent the concerns of organizationally under represented groups; and efforts to eradicate social conditions which contribute to violence against women and children.*
